# Important note

This white paper is updated after the production of each application and the content of the new project is added to the same white paper

# 1. Abstract

Every few months, the programming team plans to design and produce a highly functional blockchain-based application

The implementation of all these applications is the presence in the blockchain.

Will we reach the number mentioned?

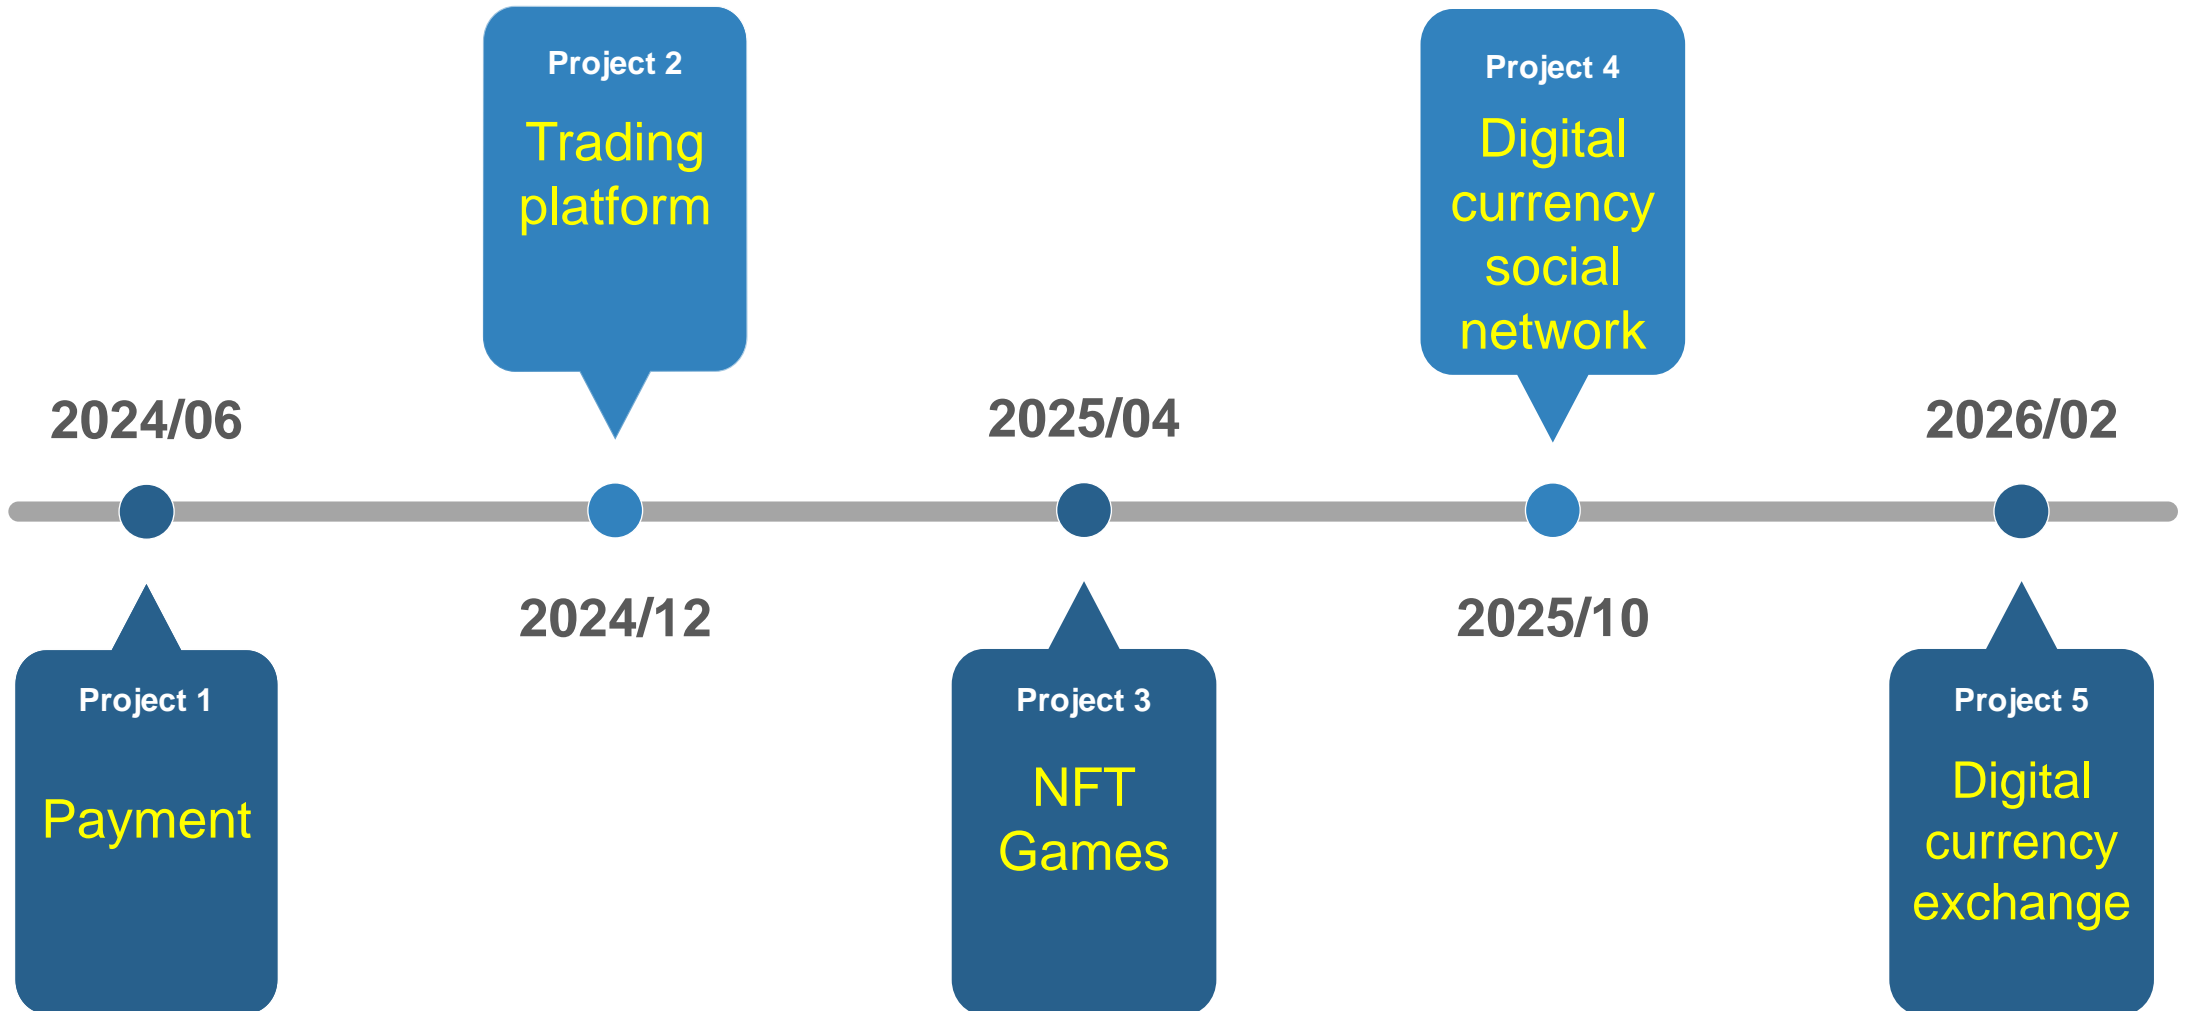

- These Programs Will Run On All Platforms
- Without The Slightest Error
- Very High Speed
- User Friendly
- Completely Free

## 2 billion

We plan to reach the goal of 2 billion downloads for each application

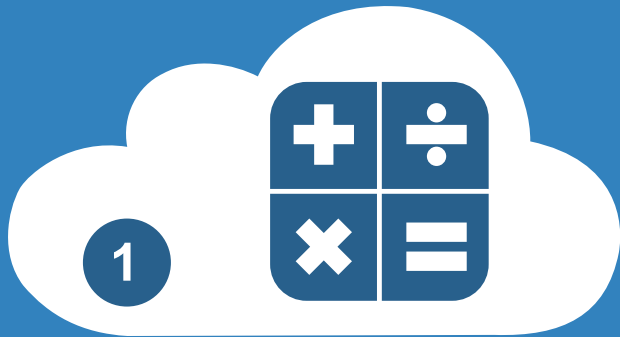

# Project Timeline

## 2. Introduction the Payment

Just enter the  
amount and press  
the pay button

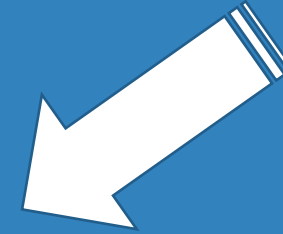

In less than 1  
second, the amount  
will be deposited in  
the destination  
wallet

No fee

# Deposit to wallet

- Driver
- Store
- car parking
- Super Market
- Bar
- Casino cinema
- Theater
- physicians
- Hospital
- clinic
- Airport
- rail
- Terminal
- Telephone taxi
- Internet taxi
- Bus

- Subway
- Electricity
- gas
- Water
- Phone
- Internet charge
- Driving fine
- Insurance
- Fire
- Flood
- Accidents
- earthquake
- charity
- Park
- Amusement Park

And ...

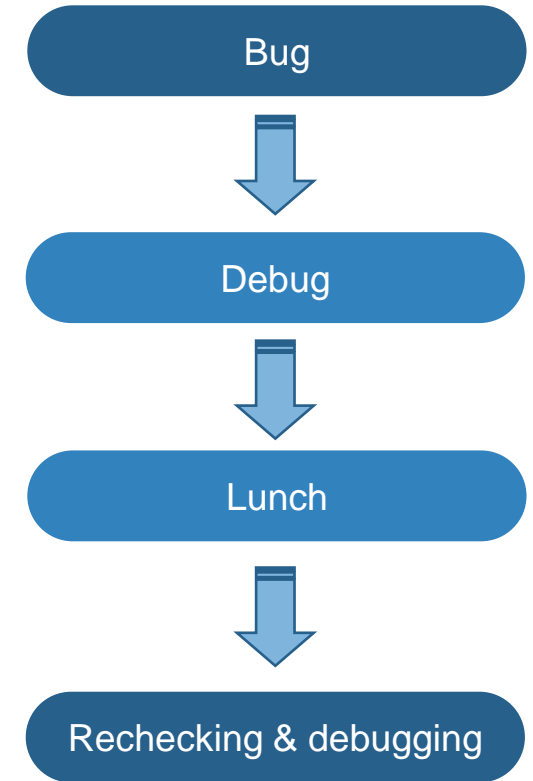

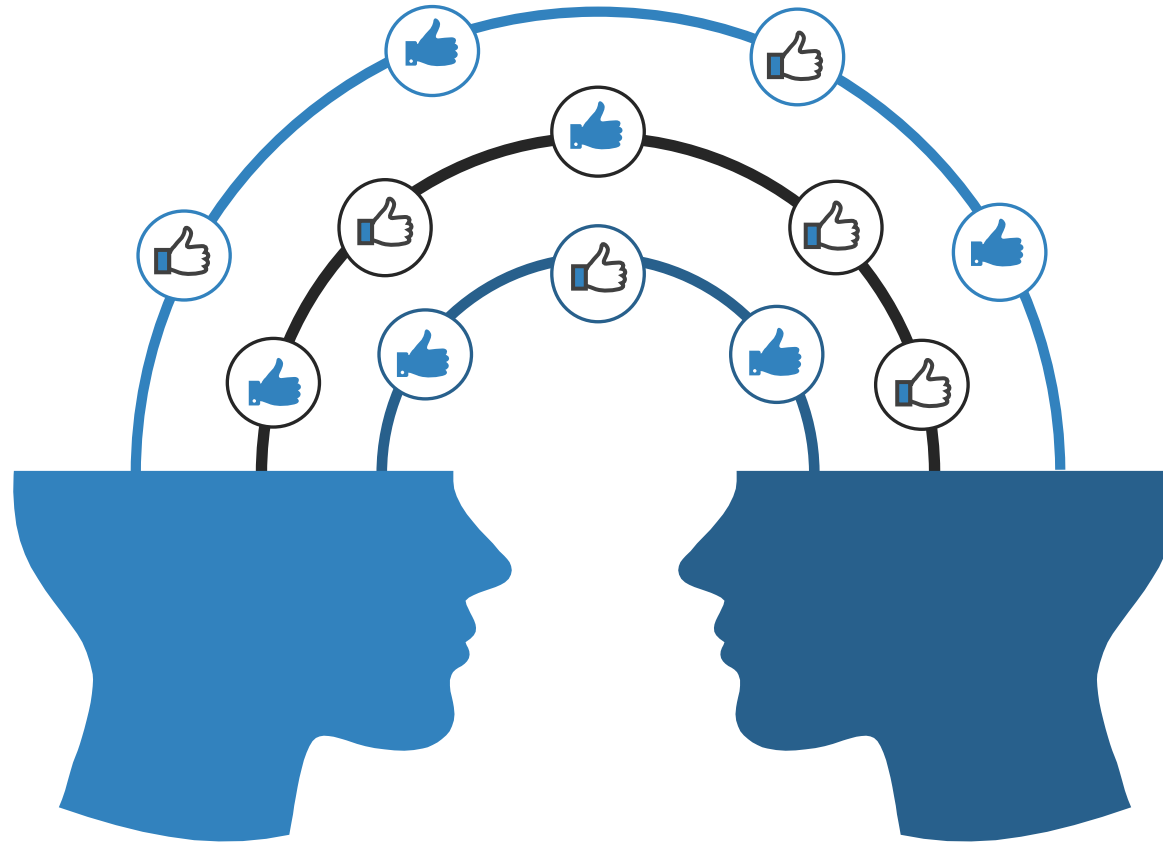

# Zero fee

Compatible with all wallets in the world

# 3. Problem

We are moving forward according to plan and we have not had any problems so far

# 4. Description

1 Registered With Mobile & Email

2 Support From 0.00001 \$ To unlimited

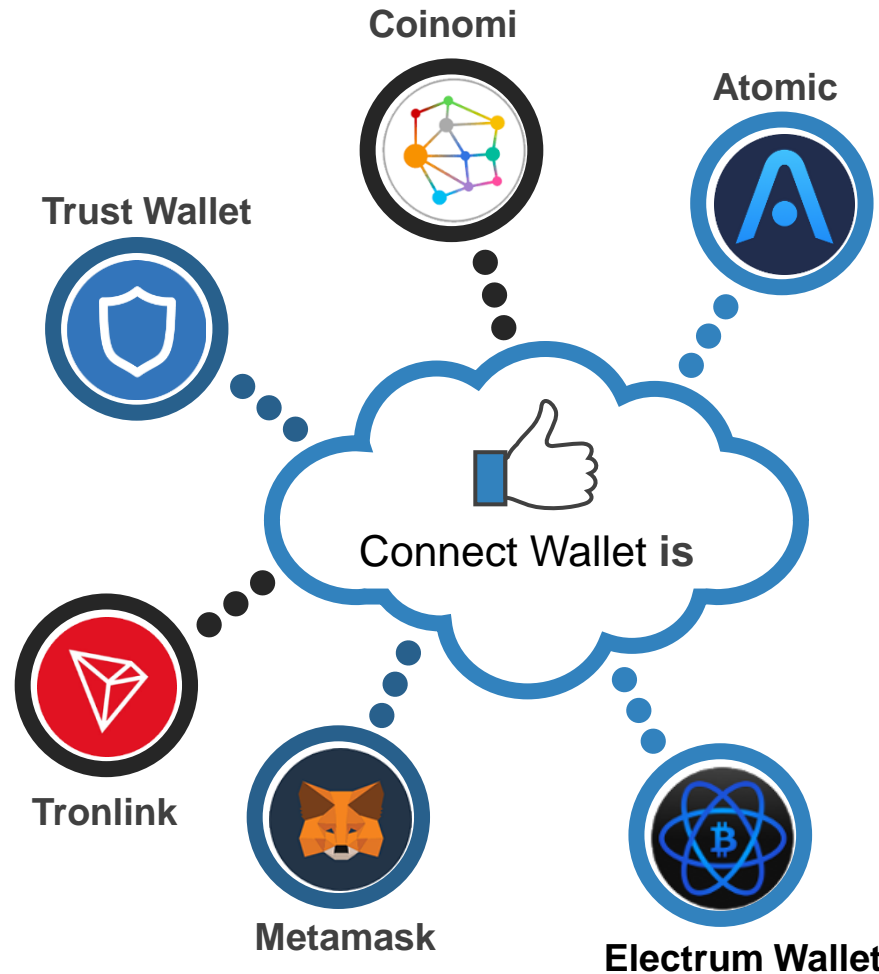

3 Exchange Swap

4 Lattary every week

5 Credit and payment and lending

6 Send & Receive Coin To Other

7 API For programmers

**Other Wallet:**  
Ledger Nano S  
Ledger Blue  
Trezor Wallet  
KeepKey  
Exodus  
Mycelium Wallet  
Edge  
Jaxx Wallet  
Samourai Wallet  
Bread Wallet  
CoolWallet S  
Enjin Wallet  
Infinito Wallet  
Armory Wallet  
Toast Wallet  
**And ...**

# 5.Details

## Social Networks

## Connecting Wallet

**Trust Wallet**

Final tested of this wallet:

## QR or NFC or Wallet address

3 fast payment methods are available to the user and can choose one of the automatic payment methods

# Server technical information

# Server technical information

# 6.Token

The APP runs on these platforms

**APP/BTC : 1**

We created only 1 token to prevent extra tokens

**APP/ETH : 1**

We created only 1 token to prevent extra tokens

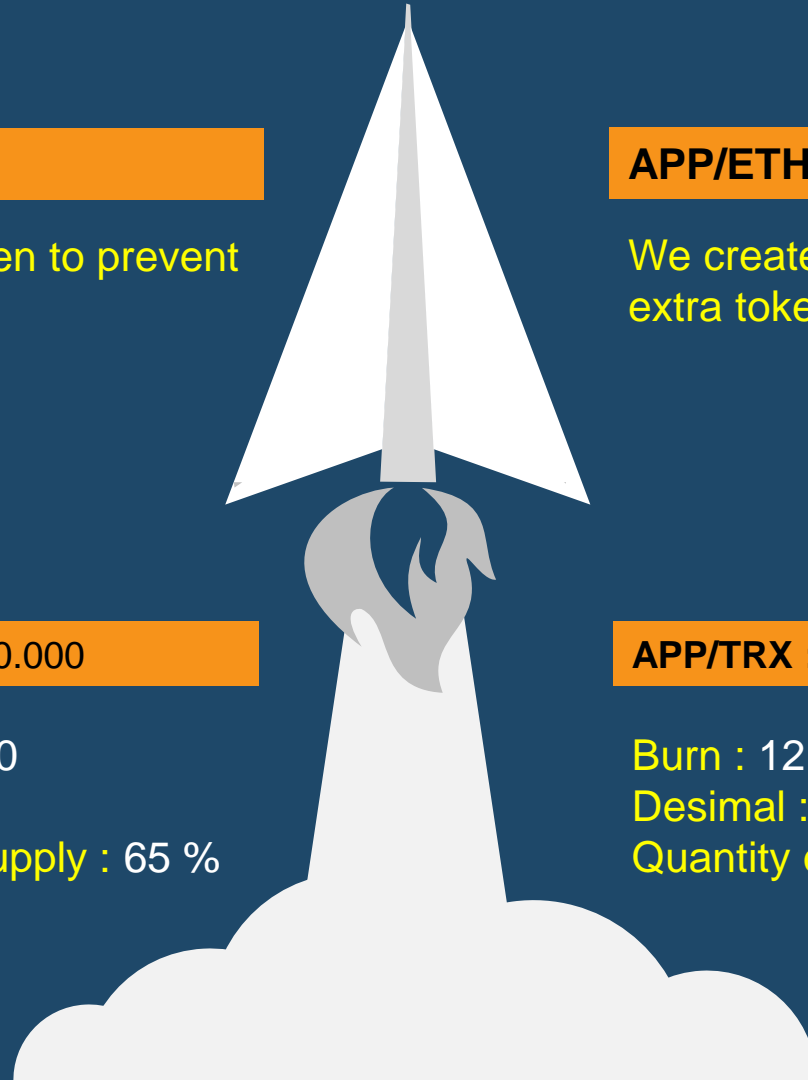

**APP/BNB : 1.000.000.000.000**

Burn : 100.000.000.000  
Desimal : 5  
Quantity of coins for supply : 65 %

**APP/TRX : 1.000.000.000.000**

Burn : 12.000.000.000  
Desimal : 18  
Quantity of coins for supply : 65 %

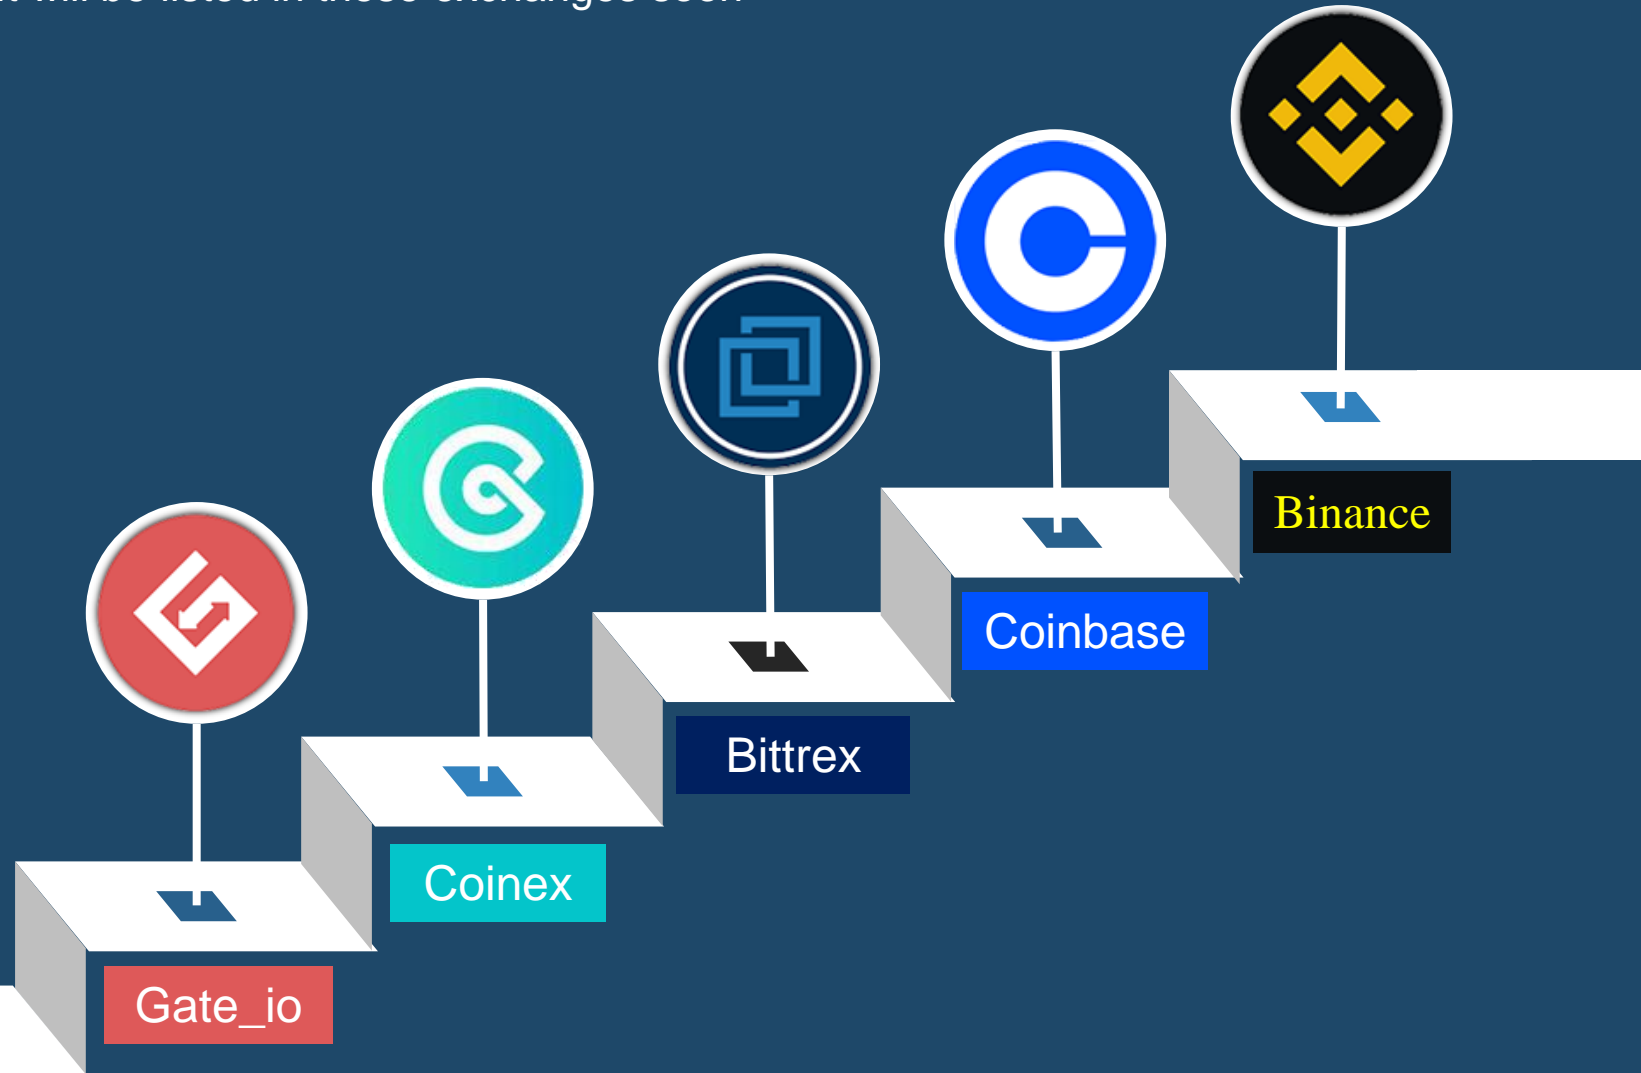

# 7. Public supply

It will be listed in these exchanges soon

# 100%

We will contact all exchanges and list the token 100%

# SWAP

# 8. Developer team

This professional team has been working professionally in the field of applications and programming for about 8 years

# Developer team

1. Team manager

2. Project Manager

3. Developer server

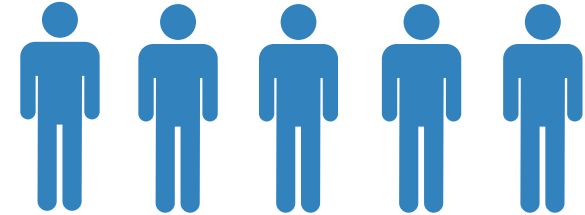

4. Website Developer

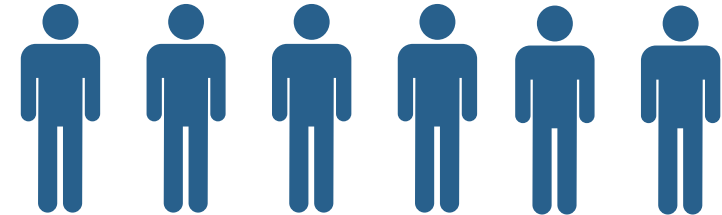

# Developer team

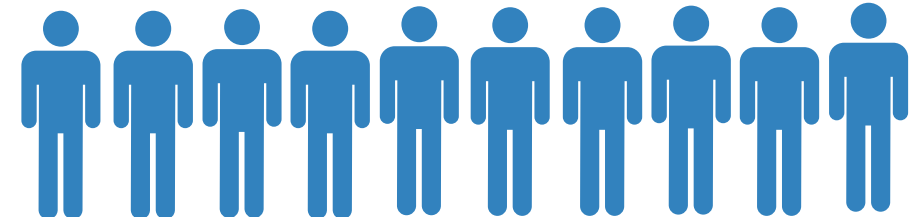

5. ios

6. Android

7. Marketer

8. Financial Markets Analyst

# 9. Financial department

## First Year

The main goal of the project in the first year is to reach \$ 0/1

A man with a beard and glasses, wearing a dark suit and tie, is sitting at a table. He is looking down at a smartphone in his hands. On the table in front of him is a glass mug with a spoon. The background is a solid blue color.

# Capital Required

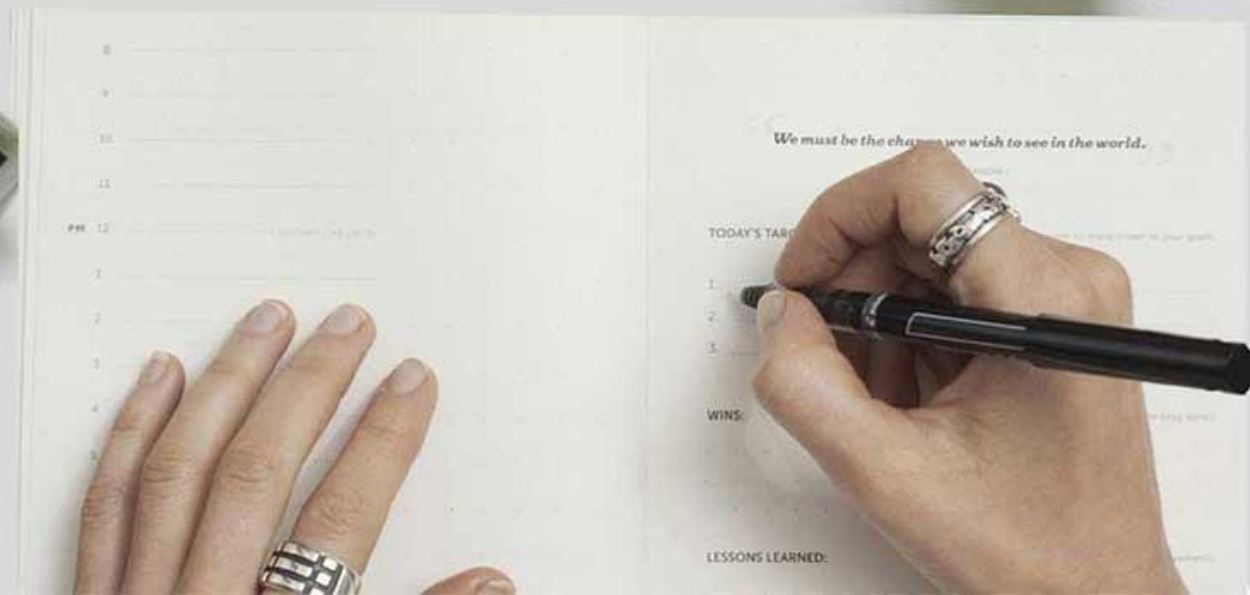

**The required capital of the project: \$ 3,478,000**

We want to sell the token in pre-sale or in decentralized exchanges before listing in the exchange.

# Investment
